

Marriage Mission Trips

Every fall we load our marriage resources into our mini-van and hit the road to serve churches, couples, and spouses in crisis. In between those trips, we also fly to various cities to work with churches, speak at events, lead retreats, train leaders, and pray with those in need. Email us for more information or to book an engagement: reconcile@inverseministries.org.

Our Testimony: A God of Second Chances

The reconciliation of our marriage after an eleven-year divorce and a distance of over 3,000 coast-to-coast miles is nothing short of a modern-day miracle. Our testimony entitled, “A God of Second Chances,” is accompanied by a multimedia presentation that enhances our story and assists us in encouraging others to reconcile broken relationships. The length of our testimony can be adapted to fit a variety of settings including worship services, special events, retreats, conferences, and small groups. In order to facilitate next steps in the process of reconciliation, we follow-up our testimony with a time of prayer ministry.

Marriage Seminars & Leadership Training

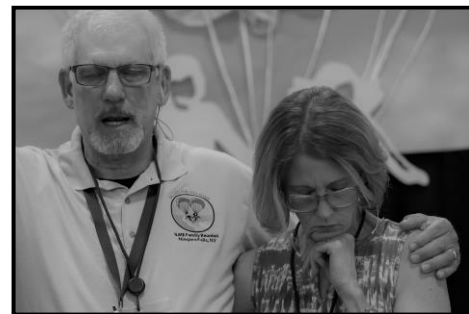

Discovering God’s Vision for Your Marriage: This seminar provides couples with hands-on training and applicable tools to help them gain a more godly perspective on their marriage. It is appropriate for all marriages, no matter where they may be in their stage of development. Topics covered include: incorporating prayer into the relationship, structuring weekly devotional time together, utilizing accountability/prayer partners, and accurately measuring the development of the marriage so that it progresses toward the intimate relationship God intended it to be. (Note: Modifications are made for those who—for whatever reason—may be attending without their spouse.

Marriage on a Mission: This seminar helps couples understand that God has a mission for every marriage. Participants are given the opportunity to begin the process of discovering what God has in mind for them, and to set an intentional course of taking their sacred journey deeper into the heart of God.

Talking About Trust: This seminar helps couples identify areas of broken trust (past or present) that may be impacting their relationships with others, including their spouse. Participants will also be given tools to help mend those broken places and deepen their relationships with each other and God.

Ministry of Reconciliation: This training, for lay leaders and pastors, uses a dynamic relational model to guide and support the implementation of reconciliation ministries in local churches, including a focus on developing a church-wide *first response* to marriages in crisis. In addition, it provides participants with hands-on resources that will help them to more effectively meet the needs of couples in crisis and those who are separated.

Building a Comprehensive Marriage Ministry/Team Training: We come alongside church leaders and ministry teams to assess the needs of the marriages in their congregation, develop short and long-range plans based on those needs, and assist in the design of a comprehensive marriage ministry—one that is sustainable and effective over time.
