

**Family Service Center**  
OF GALVESTON COUNTY

**Annual Report**  
**Brief**

**2022**

## Strengthening Families. Supporting Communities.

Family Service Center of Galveston County (FSC) has been serving the Galveston County community since 1914. FSC was created at the behest of a committee representing Catholic, Protestant and Jewish faiths. Initially founded with the purpose of dispensing relief to families in need, today, FSC provides comprehensive mental and behavioral support services to individuals across the lifespan regardless of ethnicity, gender, age, diagnosis, or ability to pay.

Family Service Center's mission is to promote the mental health and wellbeing of individuals and families through counseling, education, and prevention. Our vision is to be the premier mental health service agency in Galveston County and a recognized leader in promoting quality of life through community collaboration and building connections.

### FSC Believes

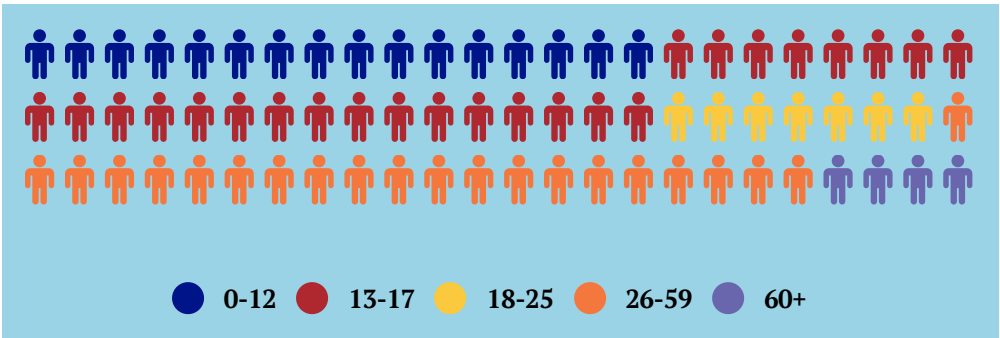

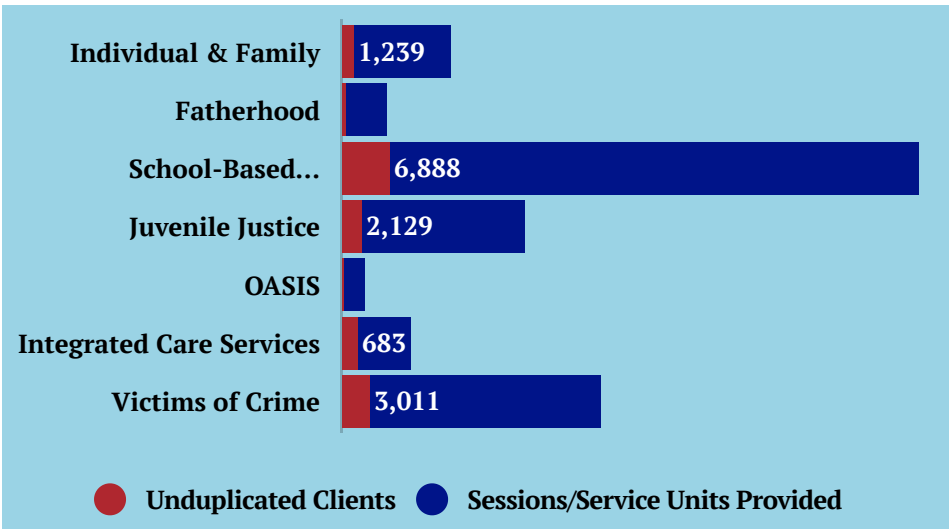

- **Every child is filled with tremendous promise.**
- **It is our responsibility to buffer the impact of trauma and adverse experiences and support families in creating healthy homes.**
- **The family is the essential institution that when supported, children, adults, and communities thrive.**
- **Every child, adult, and family should have opportunities to be happy and healthy.**

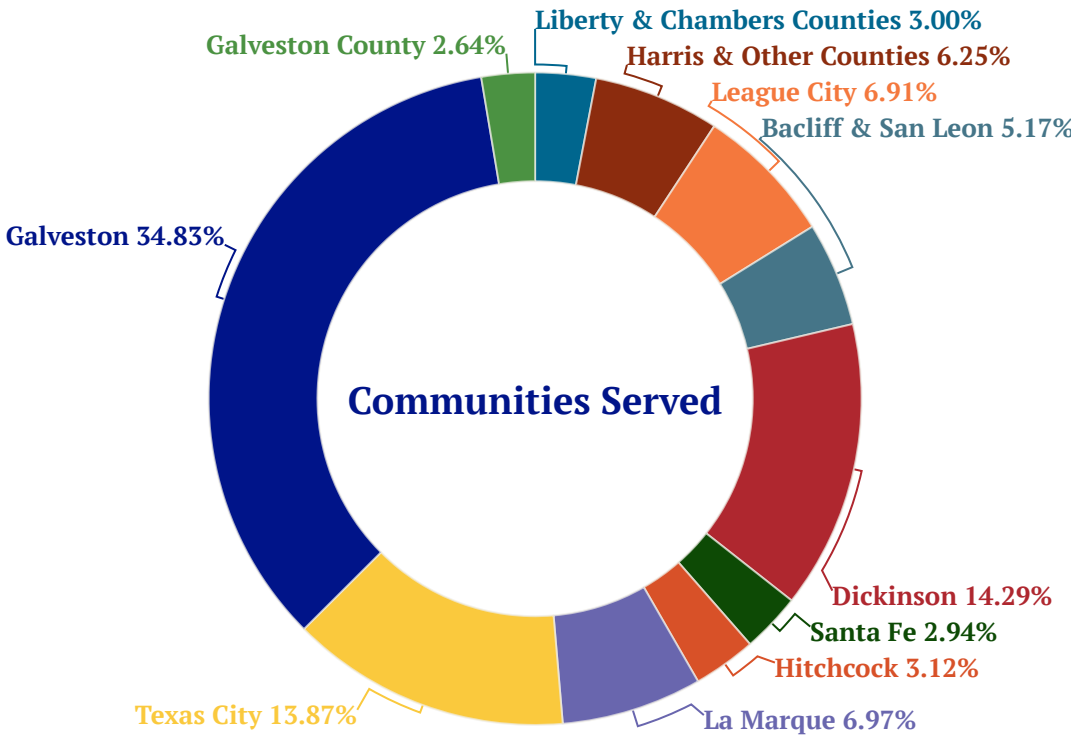

# Improving Mental Health

Over the 2022 fiscal year, Family Service Center took a deep dive to assess the needs of our agency in preparation for Dr. Julie Purser's retirement and conducting an Executive Director search. FSC welcomed Dr. Jared M. Williams, on November 1, 2022, to lead us in to our future. Thank you Dr. Purser for your vision to create a safety net for children and families across Galveston County and your contribution to establishing FSC as a mental health leader in Galveston County!

From September 1, 2021 to August 31, 2022, FSC provided compassionate care with over **14,750** sessions/service units to over **1,700** individuals through seven program areas designed to meet the needs of children, individuals, couples, and families.

*Fostering a Healthy Galveston County!*

## Increasing Access to Hope & Healing

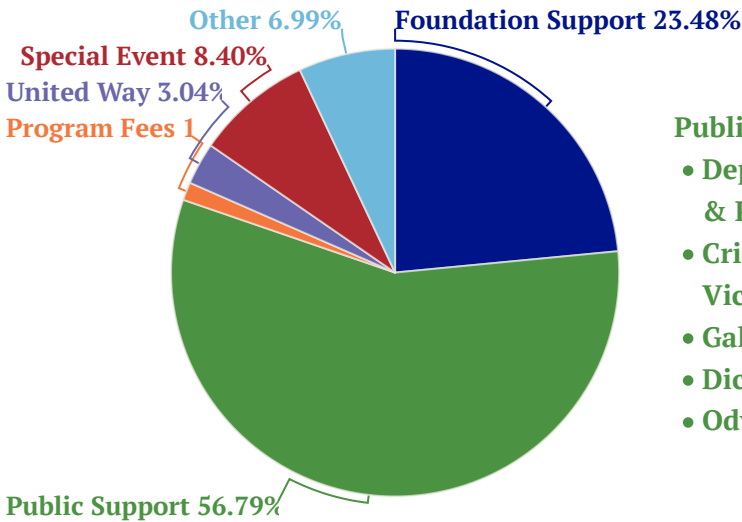

FSC increases access to counseling, education, and prevention services at over 12 schools, the Juvenile Justice Center, St. Vincent's House & Clinics, and other community locations to meet the mental health needs of children, youth, individuals, and families.

FSC's The Future Is Us program swims upstream to dismantle the school to prison pipeline for Black youth in Galveston by addressing barriers to the social determinants of mental health to increase equity and access to mental health services for children of color and their families.

# How we get it done.....

Every day, our staff of 33 works to prevent and reduce trauma reactions in our community. Thanks to the generosity of our donors, \$4.2 million was raised in FY2022. ~ **Thank You!**

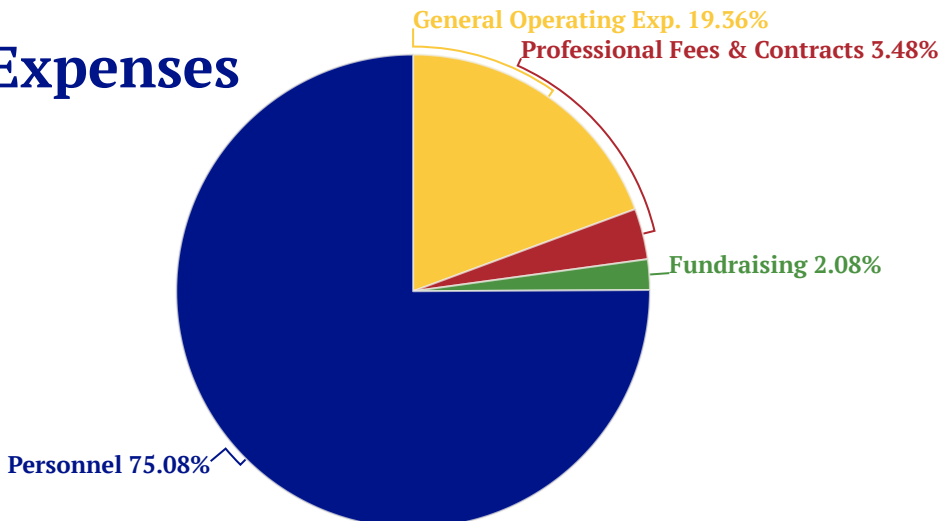

## Revenues

### Public Support Includes:

- Department of Family & Protective Services
- Criminal Justice Dept. Victims of Crime Act
- Galveston County
