

OFFSHORE WIND MARINER UPDATE NO. 19

Geological Survey beginning on or about September 28, 2019

Estimated completion date of late January, 2020.

Vessel: M/V Gerry Bordelon

LOA: 170 FT

Flag: USA

Bridge VSAT Phone: +1 832 461 4540

Email: PartyChief.GerryBordelon@terrasond.com

Standing by on VHF Channel: 13 & 16

Geological surveys will take place in the northern half of the Vineyard Wind Lease Area 501.

We encourage fishermen who may be working in the survey area to contact the fishery liaison.

The survey will gather data on seabed and subfloor conditions that will assist in identifying potential locations for future siting of offshore wind turbines and refine inter-array cable routes between each turbine.

Vineyard Wind is committed to communicating and working with the local fishermen in the region during all stages of development of the proposed offshore wind farm.

Please contact Crista Bank, Fishery Liaison, for latest information.
