

Gear Loss Claim Application

Gear Claims Procedure:

- Renewable energy developers recognize the possibility of offshore wind activity and commercial fishing gear encounters. However, with proper communication, gear interactions in connection with the construction and operations of offshore wind farms can be limited. In the event there is gear loss or damage caused by developer activities, a claim may be submitted in accordance with the claim procedure below. This joint developer claim form only facilitates the filing of a claim and does not dictate the claim review procedures each developer may follow.

Filing a Claim:

- A fisherman who sustains gear loss/damage that she/he believes was caused by a developer's activities (surveys, cable laying, construction vessels) should document the time and location of the lost/damaged gear and, if possible, collect photographs or other visual evidence, but only if collecting such visual evidence does not entail risk of harm or injury to the fisherman. Please contact the appropriate Fisheries Liaison and notify her/him of the incident as soon as safe and practical via cell/text/email.

To Submit a Claim, Applicant Must:

- Provide a complete, legible, executed application form, including accompanying photographic or visual evidence, if available, within 30 days of the incident. The form should be submitted to the Fisheries Liaison from the lease area where the loss/damage occurred (chart and contact information below). Fisheries Liaisons and Fishing Representatives are available to assist with the application form. Incomplete applications will not be accepted.

Claim Review:

- Claims will be reviewed by the developer to whom the claim form is submitted in accordance with the claim procedures established by the developer. A timeline of the event will be established and matched to the AIS tracks of the offshore wind vessels, and the ships' daily log of interaction/communication. Developers reserve the right to request additional information to support review of a claim.
- If the claim is approved or denied, a written explanation will be provided to the Applicant within 30 days of receipt of a completed claims application form.
- If the claim is approved, a check will be provided to the Applicant.
- Applicants who disagree with a claim decision, or part of a decision, may file a written notice of appeal, in accordance with the developer's claims procedures, which may include a third-party review. The decision on appeal will be final and not subject to any further right of appeal under the developer's procedures.

Gear Loss Claim Application

By submitting this Application to Vineyard Wind, Applicant authorizes Vineyard Wind to make whatever reasonable inquiries and investigations it deems necessary to verify the Application and request for compensation. Applicant understands that submitting this Application does not guarantee payment. Applicant further agrees that if the claim is accepted and paid, acceptance of such payment constitutes full, final and complete payment for this particular claim and that neither Vineyard Wind, nor any of its affiliates, successors, officers, employees, representatives, partners, agents, or joint venture partners shall have any further outstanding or ongoing obligation with respect to this particular claim and Applicant shall not, directly or indirectly, assert any claim, or commence, join in, prosecute, participate in, or fund any part of, any suit or other proceeding of any kind against Vineyard Wind, or any of its affiliates, successors, officers, employees, representatives, partners, agents, or joint venture partners. If a claim is denied in part, Applicant may accept payment for the undisputed part without waiving Applicant's right to appeal the disputed part of the claim. Applicant recognizes that submission of this Application does not affect Applicant's rights concerning matters other than those specifically identified in this Application.

I attest, under penalty of perjury, that to the best of my knowledge the information in this Application is true and correct.
