Dear Senators and Representatives-

Upon our Governor’s signature of this incredibly important bill today, the Colorado Outdoor Partnership would like to applaud your support of Senate Bill 18-143 “The Hunting, Fishing, and Parks for Future Generations Act.” Thank you for insuring that Colorado’s current and future generations have access to quality hunting, fishing and outdoor recreational opportunities for years to come.

The level of support that was shown from Partners and Stakeholders, Legislators and the general public shows how much this means to Colorado and how important our Wildlife, Habitat, Water and Natural Resources are to the people of this great state.

Investments like this are necessary to enhance, defend, promote and conserve these valuable resources and with your leadership and guidance it is obvious that these jewels of our state will be cared for and maintained for future generations to come.

The Colorado Outdoor Partnerships vision is for Colorado’s people and economy to be able to thrive because of our healthy lands, water, wildlife, working farms and ranches, and improved hunting, angling and outdoor recreational opportunities for all. Your support on Senate Bill 18-143 furthers this vision and with the collaborative effort of the partnership and all of the supporting entities, organizations, stakeholders and legislators this vision is working toward becoming a reality.

Your commitment to Colorado and Colorado’s residents and visitors alike is undeniable and much appreciated.

Your friends and partners in conservation,

The Colorado Outdoor Partnership
