Green Freight Asia (GFA) is incorporated in Singapore as “Green Freight Asia Network Ltd” by Singapore Accounting and Corporate Regulatory Authority (“ACRA”) as a non-profit organization.

The key objective of GFA is to help lower fuel consumption across Asia-Pacific sourced freight movement, reduce CO$_2$e emissions from these movements and lower shipping costs across the entire supply chain.

The Green Freight Asia brand represents the adoption of cleaner and more efficient road freight transportation practices that reduce greenhouse gases and improve air quality. The Green Freight Asia brand is represented by the Green Freight Asia logo.

The Green Freight Asia logo is defined by a leaf in 2 shades of green, above and below the midvein of the leaf. The midvein of the leaf represents a road. Next to the leaf on the right are the words Green, Freight, and Asia in a stacked formation and in capital letters. The words Green and Freight are in the same colour as the upper half of the leaf while the word Asia is in the same colour as the lower part of the leaf.

The Green Freight Asia Logo is owned by Green Freight Asia Network Limited.
THE GREEN FREIGHT ASIA LABEL (I/II)

The Green Freight Asia Label identifies companies and organizations that are committed to adopting sustainable freight practices and supporting the implementation of green freight programs and initiatives throughout Asia with a vision to increase the fuel efficiency of freight, improve air quality and minimize CO₂ emissions reducing transportation-related emissions.

The Green Freight Asia Label is a combination of 4 leaves from the Green Freight Logo, a calendar year (text direction is stacked), next to it on the left are the words Green, Freight, and Asia in a stacked formation and in capital letters in the same fashion as in the Green Freight Asia Logo, the unique logo ID in all inside a round diagonal corner rectangle with a white background colour and medium grey line colour. The Label also includes a URL and the unique label ID that can be used to lookup more information about this specific label (e.g. the country it is valid for).

The 4 leaves are at about 85% of the original leaf size of the Green Freight Asia Logo, and are positioned in horizontal formation, and inside a round diagonal corner rectangle with a light grey background colour and medium grey line colour.

There are 4 variations of the Green Freight Asia Label, which only differ in the numbers of leaves which are coloured in green or shaded in grey.

These leaves essentially represent where member companies were benchmarked in relation to adopting green freight practices and the degree of commitment members had demonstrated by making progress on adopting such practices.

Next to the 4 leaves to the right, the GFA Label indicates the calendar year, the label is valid for. Text direction of the year is ‘stacked’

The Green Freight Asia Label is owned by Green Freight Asia Network Limited.
