Referendum Question No. 1
Princeton University Undergraduate Student Government Election—Spring 2015

Condensation (Ballot Question)
Shall the undergraduates call on the Trustees of Princeton University and the Princeton University Investment Company (“PRINCO”) to divest from multinational corporations that maintain the infrastructure of the Israeli occupation of the West Bank, facilitate Israel’s and Egypt’s collective punishment of Palestinian civilians in the West Bank and Gaza Strip, or facilitate state repression against Palestinians by Israeli, Egyptian, and Palestinian Authority security forces, until these corporations cease such activities?

Explanation (Submitted by the Sponsor)
The purpose of this referendum is to call on the Trustees of Princeton University and PRINCO to divest from multinational corporations that are complicit in the Israeli occupation of the West Bank and blockade of the Gaza Strip until these corporations cease such activities.

The Israeli military occupation of the West Bank, expansion of settlements in the West Bank, and blockade of the Gaza Strip violate international law, including articles 33 and 49 of the Fourth Geneva Convention and U.N. Security Council Resolution 242. U.S. Secretary of State John Kerry has stated that “The United States of America views all of the settlements [in the West Bank] as illegitimate.” Furthermore, the occupation of the West Bank for nearly half a century is the longest standing military occupation today.

Many companies are complicit in the Israeli military occupation and blockade because they (1) maintain the infrastructure of the occupation, such as Israeli settlements, military checkpoints, and the separation wall; (2) facilitate Israel’s and Egypt’s collective punishment of Palestinian civilians in the West Bank and Gaza Strip, such as home demolitions, land thefts, and resource deprivation; or (3) facilitate state repression against Palestinians in the West Bank and Gaza Strip by Israeli, Egyptian, and Palestinian Authority security forces, including repression of Palestinian civilian demonstrations, mass incarceration without due process, and extrajudicial executions. Such corporations include Caterpillar, which provides bulldozers used to demolish Palestinian homes; Hewlett-Packard, which produces bioscanners used to profile Palestinians and track their movements; and Combined Systems Inc., which manufactures tear gas used against nonviolent protesters.

Diplomatic measures and peace talks have resulted in little to no progress. The Oslo Accords have failed to provide a Palestinian state or any semblance of a just resolution to the conflict, and with the latest campaign promise by Israeli Prime Minister Benjamin Netanyahu to ensure the lack of a Palestinian state, it is clear that peace talks alone cannot successfully secure the human rights of Palestinians. Divestment from these multinational corporations provides an incentive to engage in meaningful avenues to peace and places international pressure on the Israeli government to facilitate the end of the oppression of the Palestinian people.
