

# BRUSHING MACHINE

LAH1.11.1807.GB

LA-H

*The LA-H small-scale brushing machine is designed for batch and continuous processing of small volumes of seeds or grain prior to cleaning and grading processes*

The LA-H brushing machine is mainly used for separation of grass seeds sticking together as well as polishing, de-hulling or peeling of different seed and grain products.

For more technical information see the back page.

The LA-H brushing machine offers the below features:

- Feeding tray with open/close shutter.
- One-section exchangeable standard mantle.

- Rotating shaft with two internally adjustable brushes or steel beaters.
- Manually adjustable brushing degree.
- Collecting drawers for prime product and removed product.
- Dust suction unit for connection to aspiration spout on top of the machine.
- Inspection window.
- Start/stop switch.
- Drive motor with frequency converter.

The machine is of steel construction.

#### Options:

- *Inlet with vibrator feeder (instead of feeding tray)*
- *Outlet pipes for transport of product to floor level*
- *Autotransformer for 110 V, 60 Hz*

## EQUIPPED FOR CHANGE

We provide valuable insights, so you can make qualified decisions

## BRUSHING MACHINE LA-H

### TECHNICAL SPECIFICATIONS:

	LA-H
Motor V	1 x 230
Drive motor kW	0.75

### DISTINGUISHING ADVANTAGES:

- Feeding tray with open/close shutter ensuring a dust-free operation of a wide range of products
- Easy overview of the process through inspection window
- Electrical controls for easy connection into a 230 V outlet; Autotransformer for 110 V also available
- Easy clean-down when changing from one product to another
- Low maintenance costs
