2021-2022 GHUCCTS TBS Grant Writing Workshop
(for predoctoral students, postdoctoral fellows and early stage career investigators)

Objective: Each participant will develop, revise, and prepare to submit an F-, K-, or R-series NIH grant application, or equivalent over the course of this virtual workshop with constructive input from facilitators and participants. Participants will hone their grant writing skills through attending lectures on best practices for individual grant components and by giving and receiving constructive feedback from their peers.

Format:
- Facilitators discuss grant application components, illustrating best practices with good and bad examples
- Participants provide constructive feedback for assigned draft applications during discussion sessions
- Private BOX folder will house recorded lectures and space to upload drafts.

Requirements:
- Full participation at a minimum of five out of six peer review discussion sessions
- Attendance at a minimum of four out of five talks
- Submission of proposal drafts uploaded into BOX the Sunday before a peer review session
