# BRAIN INJURY IN OHIO

**1 in 4 Ohioans have incurred at least 1 TBI in their lifetime.**

**Currently, there are over 1.9 million Ohioans who have sustained a brain injury in their lifetime.**

These life altering injuries impact their ability to live, learn work and play in the community.

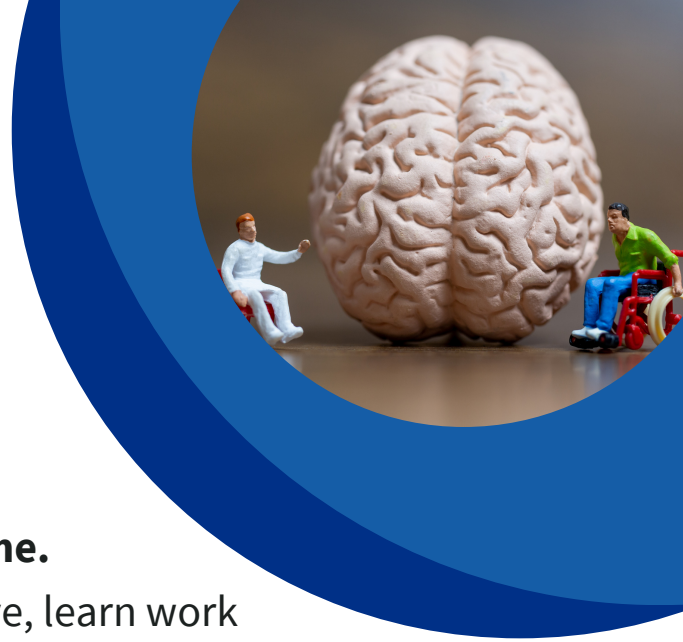

**In an effort to help support families in our community, the Brain Injury Association of Ohio (BIAOH) provides resources, supportive services, education and advocacy to Ohioans who have been impacted by brain injury.**

We would like to extend the opportunity to you to participate as a sponsor at our **2023 Ohio Brain Injury Summit** in an effort to support these important initiatives as well as offer visibility for your business. The Ohio Brain Injury Summit is the premiere educational and community-building event for care professionals and survivors of brain injury. Together, we learn about new research, clinical practices, and resources around the state for Ohioans affected by brain injury. This sponsorship opportunity allows you to connect with the brain injury community including researchers, clinicians, survivors and caregivers. Your investment provides multiple opportunities for community exposure.

- A two day event with an anticipated attendance of 100 -150 individuals
- Social media impressions to over 2,000 followers.
- Email reach to over 1500 subscribers.

Please review the enclosed Sponsorship Guide to learn how your organization can get involved in bringing services and supports to survivors, caregivers and professionals. Please feel free to contact us at (614) 481-7100 or [ppowers@biaoh.org](mailto:ppowers@biaoh.org).
