Contemporary

At its core, the word "contemporary" means "of the moment." Sleek & thoughtful, contemporary design spaces often feature a mixture of both straight and elegantly curved lines, which can be seen as a slight nod to this style's art deco roots. Today, the look is defined by curved lines, and embraces minimalistic elements highlighting grays, beiges and shades of white. Although the contemporary trend changes with time, the basic cutting edge simplicity and idealism remains as unique as your vision.

Victorian

Victorian Mouldings hearken to the richness of old world artisan builders, craftsman and clothiers that regarded every part of their work a piece of art. It is a style that can transform the bland into a bold statement of line and form. Ornate mouldings can be combined to restore a great Painted Lady or add a subtle flair and richness to add glamour to any room in your home.
