

Middle School Digital Photography Challenge

Task:

The challenge theme is: color contrast.

Keeping the theme in mind, create a multimedia digital photographic portfolio that contains **(3) three** edited photographs of your choice, along with (3) three original, unedited photographs. The original photo and the edited version should appear together on the same page and must be labeled "original" and "edited." The next page should include description of the preceding photos along with a synopsis of how the original photo was edited/changed, and the rationale surrounding how the themes is specifically addressed by both the style and content of the photo. In addition, each photograph must include the following information:

- Camera make
- Camera model
- F-Stop at which photograph was taken
- Exposure time of each photograph
- ISO value, aperture, and shutter speed

If the images contain people, the appropriate consent and release forms must be submitted along with the digital portfolio.

Submission:

Upload your completed entry using the same MS Digital Photo upload link.
