Additional Resources—For any of the following species, WA Department of Fish and Wildlife has fact sheets that may be of use on their website. https://wdfw.wa.gov/living/birds.html

Canada Geese
Crows
Domestic pigeons
Magpies
Robins
Starlings
Swallows
Woodpeckers (Flickers)

By state law, you have 24 hours to get the animal to a rehabber. Keeping an animal can result in it being seized and euthanized.

Wildlife Rehabilitators (King County)

Puget Sound WildCare
28727 216th Ave SE
Kent, WA 98042
360-886-8917
Notes: Most species; no large carnivores; no elk, or moose

They take very limited amounts of birds during the summer months. Please have anyone call first. They may or may not be able to help them.

PAWS Wildlife Center
15305 44th Ave W
Lynnwood, WA 98046
425-412-4040
Notes: All species including large carnivores

Hours: 8-5 during Winter; 8-8 April 1-October 1

During the summer months, they may not be able to take non-native species (house sparrows, rock doves/pigeons, European starlings). They will if space allows so have them call first. It is not illegal to keep these species so we can do nothing if they want to keep them.

Kelley Ward - Featherhaven
Enumclaw, WA 98022
253-350-5792
Notes: Songbirds only

Limited space and home-based so please call first.

There are no pickup sites or vets on the Eastside that accept wildlife. Seattle Animal Shelter (not Seattle Humane in Bellevue) will accept wildlife for PAWS, but have them call PAWS first. They may call a local
vet if no other option to see if they might be able to help transport to a local center, but there is no guarantee.

Additional resources outside of the County:

**Snohomish**

**Shirley M. Shumway - 2nd Chance Wildlife Care Center**
6512 61st Pl SE
Snohomish, WA 98290
425-335-0788
Notes: Small mammals, birds, birds of prey initial care only
She takes in very limited amounts.

**Sarvey Wildlife Care Center**
13106 148th St NE
Arlington, WA 98223
360-435-4817
Notes: All species except large carnivores; coyote, fox, and bobcat okay
A good bet if they are willing to drive the distance. About 1 hour from Kirkland.

**Kitsap**

**West Sound Wildlife Shelter**
7501 NE Dolphin Dr
Bainbridge Island, WA 98110
206-855-9057
Notes: All species

Because they are on the island, they do not get the numbers of animals that everyone else does so often have room when no one else does.

If you need resources outside of these areas, you can find everyone licensed in the state at [https://wdfw.wa.gov/conservation/health/rehabilitation/](https://wdfw.wa.gov/conservation/health/rehabilitation/)

If they are in Bothell or Seattle, they may be able to get Animal Control to assist with birds of prey or larger wildlife. No other jurisdictions will help. Do not give advice on getting an adult raptor that has been injured, leave that to PAWS or Sarvey (they can have the liability if they are injured).

In Bothell, Kristi Boucher is the only animal control agent that will help. Kristi.boucher@bothell.gov
425-487-5145

If there are ducks/geese crossing or injured wildlife on a highway or major road, State Patrol may help. The number for the Bellevue office is 425-401-7788. Stopping traffic to help wildlife is apparently illegal in Washington and people are ticketed for it.
US Fish and Wildlife may help if it is an endangered or threatened species. They will also help with nuisance Flicker complaints. The number for the Redmond office is 425-883-8122; Tacoma is 206-429-2198/206-429-2478. Generally the Tacoma office is the one that brings animals to PAWS so suggest them first.

WA Dept of Fish and Wildlife will help with loons and swans only. They have a swan hotline for injured swans that runs from Nov-Mar 360-466-4345 ext 266

Questions: Call Tereza on her cell 239-273-5648 (don’t give out to callers)
