We all love Moreton Bay, its beautiful coastline, and incredible wildlife of koalas, dugongs, sea turtles and migratory shorebirds.

But Walker Corporation is using all its influence to push through its destructive plan in Cleveland at Toondah Harbour.

THIS PLAN WILL SEE

3,600
New high rise apartments built on top of internationally recognised wetlands and irreplaceable habitat

30,000
Extra traffic movements per day

20 years
of congestion around the ferry terminal.

PROTECT TOONDAH HARBOUR TO PROTECT
COMMUNITY, BUSINESS AND TOURISM.
