# Checking transaction history

You can log into your account anytime to view all the transactions that have happened.

NOTE: this is different than an official monthly statement. To learn how to download your statement, see the **TD Online Banking Modules\_Viewing Statements** document.

The transaction history is just a list of transactions that have occurred. It is a good idea to check it often to ensure you're aware of everything happening in your account.

You can view transactions for specific time periods, or for specific transaction types, such as bill payments.
