21-DAY LEADERSHIP ACTIVATION

This is the EXACT work that catapulted my results in the last year & allowed me to... 🌹

Grow a podcast to multi 5-figure downloads (w/ less than 75 episodes), hit international charts, & grow audience by thousands

Attract dreamy clients that "come out of no where" & soul sister queens that resign

Cultivate a small but mighty IG community (& let hundreds leave to make space for aligned AF people to enter - a boss move)

Speak on a global summit, guest teach in a group program, be interviewed on multiple podcasts, & co-host a talk at a major university

Create offerings that are 100% mine & turn my soul ON vs. worry about what everyone else is doing

Blast open my throat chakra & clear inspiration blocks. Put out floods of content & love the process (after seasons of inconsistency)

Feel safe, at peace, & free to bring allll of me forward. Kind self talk & genuinely proud af of myself, knowing I'm living my potential every day
