

Leaders now recognize **AI is radically changing their industries,** but **few understand** how to **apply** it to their business.

Empower your organization to plan your AI powered future with this signature facilitated experience.

Workshop **Modules**

Through our workshop, we help your leaders build awareness of, intuition with, and confidence in applying Artificial Intelligence technologies to address current and future business opportunities using collaborative and participatory exercises.

AI Modular Exercises

Enhance decision making by reviewing the latest advances and real world use cases of applications of AI.

Generate POC Recommendation

Define problem statements and user stories specific to your business, refined by your newly acquired knowledge of applying AI.

What You Get

iSiD-Gigster believes that empowering people with access to AI knowledge, AI talent, and a platform that produces intelligent outcomes unleashes exponential business impact.

AI Success Handbook

Case Studies, Rules of Thumb and general AI Best Practices.

AI For Decision Makers Summary

Summary of the ideas surfaced and key decisions made during workshop.

Indicative AI Product Roadmap

AI Product Recommendations best fit for your business objectives that highlight critical needs uncovered during the workshop.
