Below is the outline of the “As It Happens” clock which feeds live at 1900ET:

- **0:00 to 1:00**: Billboard
- **01:00 to 06:00**: Newscast window (stations must fill the newscast window with and outside sources.)
- **06:00 to 35:00**: AIH segment one (new outcue will not reference the CBC version newscast at the bottom of the hour - i.e. “…back after this.”)
- **35:00 to 36:00**: One minute ID break with music under
- **36:00 to 59:00**: Segment two the US version will start just past what will now be a standard one-minute second-half billboard
- **59:00**: Program ends
