

LakeCity Plastics

Healthy lives. Healthy Minds.

LakeCity Plastics

"Canadian individuals are increasingly concerned with plastic waste and environmental impact. With their consumer and citizen power, they are demanding that businesses and governments respond with a more sustainable approach to plastics."

*A Vision for a Circular Economy for Plastics in Canada: The Benefits of Plastics Without the Waste and How We Get it Right;
Smart Prosperity Institute*

LakeCity Plastics is a new entrepreneurial venture at LakeCity Works, one that is both socially and environmentally impactful. Our Plastics team transforms plastic lumber – made from recycled film plastics – into a line of beautifully robust outdoor furniture, effectively turning single-use plastics into something that will last a lifetime.

LakeCity Plastics is also increasing supported employment opportunities for individuals living with mental illness, all the while saving plastics from landfills or incineration.

We have just completed our first order of picnic tables for The Halifax Regional Municipality; allowing Nova Scotians to see their waste become a useful, long lasting addition to their communities.

For more information on our emerging line of recycled plastic products, or to inquire about custom work, please email us at plastics@lakecityworks.ca

Each plastic picnic table:

- Is made from over 10,000 plastic bags
- Weighs approximately 160 kgs

Other products available:

- Planter Boxes
- Tables
- Benches
