

LakeCity Plastics

**ETHICALLY PRODUCED, INNOVATIVE DESIGN
BUILT TO LAST A LIFETIME**

LakeCity Plastics is committed to transforming the problem of plastic waste into durable, innovative and beautiful products.

"Canadians are increasingly concerned with plastic waste and environmental impact. With their consumer and citizen power, they are demanding that business and government respond with a more sustainable approach to plastics."

- *A Vision for a Circular Economy for Plastics in Canada*, Smart Prosperity Institute

In 2017, a collaboration between LakeCity Works and Goodwood Plastics Products Limited created the first recycled plastic furniture to be manufactured in Nova Scotia.

LakeCity Plastics is a venture at LakeCity Works, one that is both socially and environmentally impactful. Our Plastics team transforms plastic lumber - made from recycled film plastics - into a line of beautifully robust outdoor furniture, built to last a lifetime.

For more information on our emerging line of recycled plastics furniture, or to inquire about custom work, please email us at: plastics@lakecityworks.ca

Since 1972, LakeCity has worked to develop an impactful presence in the Dartmouth community. As a social enterprise, our ventures support people with mental illness to build on their strengths, take on responsibilities and access work experience, education and employment. We provide hope, support, respect and empowerment to our community, and through this, help each person reach their full potential.

The advantages of LakeCity Plastics

- Attractive design
- Customizable
- Highly durable
- Impact resistant
- Superior quality
- Maintenance free
- Chemical resistant
- Environmentally and socially responsible
- Accessible designs

Each picnic table diverts
over 10,000 plastic bags
away from landfills.

in memory of a loved one **Legacy work**

LakeCity Plastics can provide individuals, businesses or organizations with memorial benches to honor the memory of a loved one. Adorned with a customized plaque to accomodate a personalized message, our benches will ensure the legacy of your loved one lives on for generations to come.

News

In 2019 LakeCity Plastics partnered with HRM, Develop Nova Scotia and Sobey's. These exciting business developments resulted in hundreds of park benches and picnic tables now enjoyed in public spaces throughout the HRM.

"Launching this new venture has been such a positive experience. Nova Scotians as a whole love the innovative approach LakeCity Works and Goodwood Plastics are taking to reduce our footprint on the planet. Having the Halifax Regional Municipality come on board as a supporter early on speaks volumes to their commitment to fostering social entrepreneurship and protecting the environment."

– Liam O'Rourke, Executive Director, LakeCity Works

Majority of plastic recyclables in Halifax being turned into synthetic lumber

"It's certainly a great example of someone thinking outside the box," says Halifax's solid waste manager
