Dear Mr. Hyams:

Re: Letter Certifying Clean Power SF's Updated Implementation Plan

The California Public Utilities Commission (Commission) has reviewed Clean Power SF's (CPSF) Updated Implementation Plan and Statement of Intent, filed with the Commission on July 27, 2015.

CPSF's Updated Implementation Plan is in compliance with Commission Decision 12-08-045, issued on August 31, 2012, in which the Commission directed existing Community Choice Aggregators (CCA) to file revised Implementation Plans to conform to the privacy rules in Attachment B of the Decision.

Pursuant to Public Utilities Code Section 366.2 (c)(7), within 90 days after the Community Choice Aggregator establishing load aggregation files an Implementation Plan, the Commission is required to certify that it has received the implementation plan, including any additional information necessary to determine a cost-recovery mechanism.

Pursuant to Public Utilities Code Section 366.2 (c)(3), a CCA Implementation Plan is required to contain all of the following:

- A) An organizational structure of the program, its operations, and its funding.
- B) Rate setting and other costs to participants.
- C) Provisions for disclosure and due process in setting rates and allocating costs among participants.
- D) The methods for entering and terminating agreements with other entities.
- E) The rights and responsibilities of program participants, including, but not limited to, consumer protection procedures, credit issues, and shutoff procedures.
- F) Termination of the program.
- G) A description of the third parties that will be supplying electricity under the program, including, but not limited to, information about financial, technical and operational capabilities.
