Re: CleanPowerSF Advice Letter 2
GHG Emissions Performance Standard (EPS) Compliance Filing 2017

Pursuant to Ordering Paragraph No. 4 of Decision ("D.") 07-01-039, issued in R.06-04-009 on January 25, 2007, CleanPowerSF submits this annual Attestation Letter affirming that the financial commitments CleanPowerSF has entered into for generation during 2017 are in compliance with the greenhouse gas ("GHG") emissions performance standard ("EPS").

The EPS was established with the passage of Senate Bill (SB) 1368¹ and:

...Establishes a minimum performance requirement for any long-term financial commitment for baseload generation that will be supplying power to California ratepayers. The new law establishes that the GHG emissions rates for these facilities must be no higher than the GHG emissions rate of a combined-cycle gas turbine (CCGT) powerplant. An EPS is needed to reduce California's financial risk exposure to the compliance costs associated with future GHG emissions (state and federal) and associated future reliability problems in electricity supplies.²

In order to ensure that the requirements of SB1368 are met, the Commission requires Load Serving Entities to annually identify any generating resources or newly-entered into long-term contracts that could be subject to the EPS requirements.

¹ Stats. 2006, Ch. 598.

CleanPowerSF is a program of the San Francisco Public Utilities Commission (SFPUC), an enterprise department of the City and County of San Francisco.

OUR MISSION: To provide our customers with high-quality, efficient and reliable water, power and sewer services in a manner that values environmental and community interests and sustains the resources entrusted to our care.
Compliance Documentation

CleanPowerSF has not procured any electric generation during calendar year 2017 that would qualify as "covered procurement" under the EPS requirements. CleanPowerSF did not enter into any long-term baseload contracts during calendar year 2017. CleanPowerSF did not enter into any long-term contracts (of five years or longer, as defined under the EPS) of any type during 2017.

Effective Date: No later than March 16, 2018 – 30 days after filing.

Tier Designation: Tier 2 Designation.

Protests

This compliance filing is not subject to protest pursuant to General Order 96-B, Energy Industry Rule 9.
