A large, hand-drawn rectangular box with a black outline. Inside the box, there are six horizontal grey lines spaced evenly down the page, providing a space for writing an answer to the question on the rock above.

Create a Problem/Solution Rock

Have your child paint a rock. On one side using a paint pen write the word Problem...on the other side write the word Solution. Whenever anyone is having trouble figuring something out, hold the rock and together discuss the situation or problem. Next, flip the rock over and begin to create solutions to the problem. Discuss with your children that every problem has several solutions!
