A request for proposal shall be prepared and submitted to an adequate number of qualified sources.

Notice of the request for the proposal must be published in a newspaper for least thirteen days before the last date upon which proposals will be received.

The request for proposal shall identify significant evaluation factors, including price, and their relative importance.

The municipality shall provide reasonable procedures for technical evaluation of the proposals received, identification of qualified sources, and selection for awarding the contract.

The award shall be made to the qualified bidder with price and other factors considered. The municipality may reject any proposals for good cause and request new proposals.

1.2 SCOPE & BACKGROUND OF PROJECT: SOFTWARE *(description content only)*

The purpose of the software (entity-wide, individual).

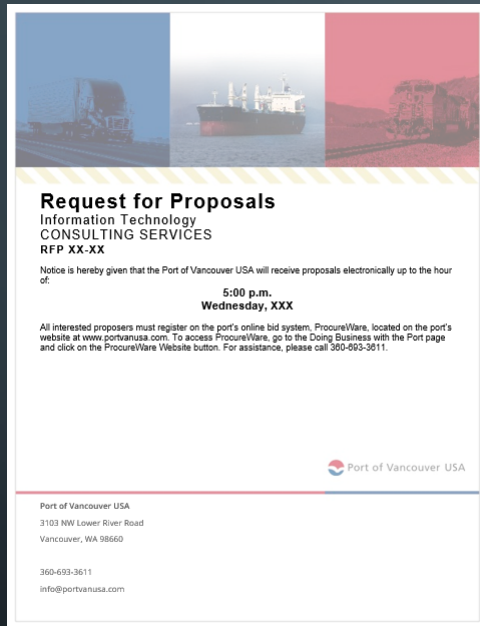

- *The type of software being procured.*
- *The software currently being used by the entity (e.g., brand specific/standardized workstations).*
- *Issues of infrastructure compatibility.*
- *Specify maintenance and support expectations, e.g., service response time, escalation processes and procedures.*
- *Specify agency-specific security and confidentiality requirements, if applicable, e.g., hard drive removal so sensitive information is kept by the entity.*

- *Specify data storage requirements and frequency of updates*
- *Cloud storage, specialized computing equipment*
- *Any needed installation or configuration services.*
- *Options for purchasing additional licenses, software upgrades, custom programming or configuration, and ongoing support.*
- *Detail the hardware necessary to house the application.*
- *Request implementation, training, and transition plans.*
- *Detail ownership of licenses upon retirement of any software.*
- *Specify file and data storage requirements.*
- *Specify special insurance requirements, e.g., cyber liability.*
- *State how users will access the application, if applicable.*
- *Request applicable cost discounts, e.g., trade-in, conversion, license quantity, support.*
- *Detail information ownership rights, e.g., data, documentation, source code.*

NEGOTIATING THE CONTRACT

Using (RCW 39.04.270)

Identify Areas of the Supplier Agreement that Poses Risk

Determine How to Negotiate the Areas of Concern

Port of Vancouver USA

NEGOTIATING THE CONTRACT

Distinguish The Difference Between The Technology Agreement And The Service Level Agreement

- Technology Agreement:
 - Core Agreement between You and the Consultant
- Service Level Agreement (SLA)
 - Defines the Services and how they will be performed

NEGOTIATING THE CONTRACT REFERENCE GUIDE

- Taxes – Does the agreement reference any applicable taxes?
- Governing Law/Venue – Does the supplier require you to follow their local laws ?
- Unknown/Undefined Costs – Are there any undefined cost within the agreement?
- Automatic Renewals – Does the purchase automatically renew after the expiration date?
- Confidential Requests – Are you required to hide information that should be public?
- Price/Rate Increases – Are there any unreasonable price increases outside of CPI or PPI?
- Termination Rights – Does the supplier have unreasonable rights to terminate?

NEGOTIATING THE CONTRACT REFERENCE GUIDE

- Supplier Liability – Does the supplier remove themselves from all liability?
- Sole Document – Does the agreement state that it is the sole authority or location of terms?
- Terms & Conditions Links – Are there links to terms & conditions not available in the agreement?
- Click Through – Language to protect against click through terms conflicting with the negotiated agreement?
- Solicitation of Employees – Is there language that will have you pay a fine if you solicit their employees?
- Supplier Favored Language – Is there language that overly favors the supplier?
- Supplier Access – Does the agreement allow for the supplier access to your system?
- Audit – Does the agreement allow for the supplier to review how their product is used.
