Band 1: Journey Tracker Pack
The graphs below show paypoints (dotted lines) and how one could expect their pay to change over the three years of the deal. The gray arrowed line shows the journey an individual would take under each system. The graph on the left shows the current system and the right hand graph shows the proposed system.

Note: Band 1 staff would have required an additional uplift to meet minimum wage requirements. Those in Band 1 can expect to move to top of Band 2 by 21/22 at the latest, to £19337 plus any pay award made in 21/22.
