As the charitable arm of Cobb Technologies, Imprint's mission is to seek out and assist unheralded causes that provide relief for at-risk and impoverished youth in our community. By leveraging Cobb Technologies' resources and status in the business community, we hope to usher these causes into the spotlight and lend them a voice.

Imprint recognizes our community is rich with charitable organizations striving to better the lives of our citizens through a variety of initiatives. While many of these charities struggle to fuel their causes with inadequate technology, Cobb and Imprint would like to assist through our Technology Product Grant Program.

Our Technology Product Grant provides qualified 501(c)(3) organizations with document output devices to handle their in-house print and copying needs. Imprint will donate a black and white, multi-function device to assist our charitable partners with the technology they need to strengthen their cause.
