

## SMALL BUSINESS GRANTS

*A Resource List of Grants Available for Small Businesses*

Thousands of small businesses have been impacted by the nationwide quarantine, which was put into effect recently to stop the spread of the coronavirus pandemic. Some small businesses might be eligible for relief aid available through grants. Grants are a type of federal financial assistance to help stimulate the economy.

This list showcases various organizations and relief aid grants. To learn more, simply click on the grant/organization name to be directed to their website.

**Just a little disclosure,** I'm based in Texas and licensed to practice in Texas, so I may share information about Texas laws and requirements. If you are based in another state, you will want to consult an attorney licensed to practice law in your state. Thank you for joining our GBP Law Family and while I enjoy sharing tips of the trade with everyone, please remember that this Small Business Grants Resource List does not constitute legal advice. It does not establish attorney-client relationship between us. In order for me to be your attorney, you would need to have signed an Attorney Retention Agreement.

**If you need legal help** with any matter relating to your business, I recommend seeking out the advice of an attorney who can help you specifically. Additionally, for further questions about tax or accounting, I advise reaching out to other professionals, which include CPAs, tax attorneys and other consultants that can help protect your business and take it to new levels.

## Looking for more?

Check out the Resource Library on my website. It's fully stocked with more checklists, pro tips, and business law guides to help you build a business with a solid legal foundation. Visit today! The password is **GBPLawFree**.
