The tee time policy for American Lake Veterans Golf Course is that the golfer cannot show up at the starter shack more than 15 minutes before their tee time. You must tee off as close to your scheduled tee time as possible. So, for now, you can check in for your tee time upon arrival at the golf course but cannot go to the starter shack to check in until 15 minutes before your scheduled tee time.

Several months ago, management instituted a policy that allowed golfers to check in early for their tee time so they could practice before play without having to come back to the front desk to check in again for their tee time. We did this for the convenience of the golfers. This policy is currently being abused to the point that management is considering going back to the old system of checking in no more than 30 minutes before your tee time. Golfers have been attempting to tee off 1 to 2 hours before their scheduled tee time which causes congestion at the tee box and backups during play. It also makes it very difficult for golfers trying to make the turn for a second nine holes of golf. Please abide by this policy to make all golfers experiences a good one.

We regret having to make this a policy, but the actions of a few people are having an adverse effect on many others, especially since we only have nine holes to play on. The object of this policy is to make golf an enjoyable experience for all during the period that the front nine is closed for renovation. This policy is only enforcing the reason for tee times and should allow everyone to tee off at their assigned tee time and also allow others to make the turn after nine holes for an additional nine holes. Thank you all for your cooperation.
