

Rulebook TECH UPDATE

Safety Update: Weight Mountings

EFFECTIVE DATE: 05/11/2018

OLD Rule:

10.4.10.2: All weight added to meet minimum kart/driver weight requirements shall be bolted and safety wired to the kart with a minimum 5/16-inch or 8mm through bolt, with weight over 7 pounds requiring two bolts. Double nuts are permitted but threads must protrude.

New Rule:

10.4.10.2 All weight added to meet minimum kart/driver weight requirements shall be bolted and safety wired to the kart with a minimum 5/16 or 8mm through bolt. Weight over 7 pounds will require a minimum single 3/8 bolt, or two 5/16 bolts. All bolts are to use double nuts, with threads of at least 1/4" still visible. Drilling and using cotter pin/safety wire in addition to the double nuts is highly recommended.

Please contact NKA with any questions.
