

LET'S ALL ASSEMBLAGE!

MATERIALS:

- Base structure (canvas, shoebox, frame, wine bottle, etc.)
- Small objects (toys, silverware, old decorations, etc.)
- Connecting materials (glue, wire, yarn, etc.)
- Pencil and sketch paper

LEARNING STANDARDS:

VA:Re.9.1.6 Demonstrate openness in trying new ideas, materials, methods, and approaches in making works of art and design.

An assemblage is a form of art that uses small objects to create a larger piece of artwork. Think of it as a paper collage in 3D sculpture form! The fun thing about assemblage is that you can use virtually any materials that you have handy! Gather supplies and start sketching out ideas, thinking about how you will be able to connect your objects together. Build your assemblage until you feel it is complete!
