**The WARM Place**<sup>®</sup>  
Grief Support Center for Children

**STRATEGIC PLANNING CONSULTING '23**  
*The WARM Place*

After the success of a capital campaign and facility expansion, The WARM Place was poised to envision the future of their services for grieving children and their families. With funding from a North Texas Community Foundation ToolBox Grant, The WARM Place enlisted the support of Project Partners to engage their executive staff and board of directors in crafting a detailed five-year strategic plan. The ultimate purpose was to further enhance The WARM Place's capacity to serve more clients in need. Informed by data collection and analysis facilitated by Project Partners, including a survey of all staff and board, document review, one-on-one meetings, and a full-day work session of board members and leadership staff, the resulting plan outlined goals, objectives, tasks, responsibilities, and timelines across five strategic focus areas.

**“I was honored to work with The WARM Place on their important endeavor to layout a strategic plan for the next five years that will help build long-term sustainability. As long as there are children grieving the death of a loved one, our community will need The WARM Place.”**

Corinne Fiagome, MPP, Senior Consultant
