Medical Intuition - UCSD Research Study Proposal Overview and Donation Information

Recent advances in the field of mind-body medicine acknowledge the importance of including intuition when treating patients and clients (Johansson-Palmqvist-Ronnenberg, 2017; Peterkin, 2017; Marks-Tarlow, T., 2014). One way to strengthen communication between the mind and the body is through the skill of intuition. Like any other skill, intuitive abilities can be developed and optimized for greater clarity, consistency and application.

Medical Intuition is part of the field of Complementary and Alternative Medicine (CAM) and focuses on the use of pinpoint visualization skills and in-depth intuitive scanning to assess and evaluate energetic patterns in the physical systems of the body and the biofield, that can correspond to illness, imbalance and disease. In addition, Medical Intuition can assist in addressing the energetic influence of thoughts, beliefs and emotions, and how they impact the health and wellbeing of an individual.

This comprehensive method is designed to help practitioners deliver fast, accurate health assessments for body, mind and spirit wellbeing. Pilot survey results show 94% accuracy rates in location and evaluation of current health issues, 98% accuracy in description of life experiences that correspond to health issues, and 94% accuracy in consistency with a known medical diagnosis. A revolutionary new perspective in mind-body medicine, Medical Intuition can provide essential and practical support to any holistic, functional and integrative healthcare practice.

The Practical Path, Inc. is pleased to announce our collaboration with the University of California San Diego (UCSD) School of Medicine for a ground-breaking research study into Medical Intuition, Medical Intuition in the Medical Setting. This research proposal has grown out of the recognition of the increasing value of medical intuition in the medical setting, and the need for scientific research in this area.*

- The Practical Path, Inc. has been providing training in Medical Intuition to healthcare professionals since 2009, and currently offers programs at Prebys Cardiovascular Institute at Scripps, La Jolla CA.
- UCSD is one of the top-ranked public research universities in the nation.
- UCSD School of Medicine faculty rank #1 in clinical research and #3 in basic research.
- UCSD ranks 4th in the world in terms of ‘citation impact’ in the fields of science and social science, with worldwide notable faculty.
- The Department of Family Medicine and Public Health, in which the Center of Excellence for Research and Training in Integrative Health resides and where the study will take place, is ranked #1 in the nation among Family Medicine departments.
- Dr. Paul J. Mills, the UCSD Principal Investigator for this study and Director of the Center of Excellence for Research and Training in Integrative Health, has published over 350 scientific studies, and has extensive experience conducting studies that require collaboration among interdisciplinary groups of practitioners, clinicians and researchers.

This important research study is a pioneering effort to advance the scientific study of Medical Intuition. While scientific research is placing more attention on the human biofield, its appreciation in medicine is still limited. As such, this initial study requires financial support from a broad range of private funding sources.
UCSD RESEARCH STUDY DONATION INFORMATION

Donations are tax-deductible

Credit Card Donations

• Please click this link: http://tinyurl.com/y48kpj23

• Or you may cut/paste this url into your browser: https://medschool.ucsd.edu/som/fmph/research CENTERS/INTEGRATIVEHEALTH/Pages/Contribute.aspx

• The link will bring you to the Contribute page. Click “Give Online” blue text link.

• The Fund should be listed as COE RESEARCH AND TRAINING SUPPORT | MILLS, Fund #86R18

• Choose your Donation amount.

• IMPORTANT: Under Payment Type, there is a line for SPECIAL INSTRUCTIONS. Please type COE MEDICAL INTUITION STUDY in the Special Instructions field to earmark your donation for our study.

Check Donations

Please contact us at info@thepracticalpath.com or call 877-433-6611 for the UCSD Research Support Letter to earmark your donation for the study.

Major Donors

We would be happy set up a meeting with Dr. Paul J. Mills, UCSD School of Medicine, and Wendie Colter, CMIP, The Practical Path, Inc.

*For those considering a major donation, please contact us to receive the UCSD Research Study Proposal.
