Subject: California Manual on Uniform Traffic Control Devices - UPDATE

CA MUTCD Revision 2

Effective April 7, 2017, the California Department of Transportation (Caltrans) has updated the California Manual on Uniform Traffic Control Devices (CA MUTCD) 2014 Revision 1 to provide uniform standards and specifications for all official traffic control devices in California. This action was taken pursuant to the provisions of California Vehicle Code Section 21400 and the recommendations of the California Traffic Control Devices Committee (CTCDC).

Caltrans has received a letter from the Federal Highway Administration (FHWA) confirming substantial conformance for the CA MUTCD 2014, Revision 2 edition. The revised CA MUTCD includes the FHWA’s Manual on Uniform Traffic Control Devices, policies on traffic control devices issued by Caltrans since December 9, 2015, and other corrections and format changes. The CA MUTCD revision 2 is available on the Internet at:

Vijay Talada, P.E.
CA MUTCD Editor

(916) 653-1816
• Code of Federal Regulations (23 CFR 655.603) states that TCD on all streets, highways, bikeways, and private road open to public travel in each State shall be in substantial conformance with standards issued or endorsed by FHWA;

• The Manual on Uniform Traffic Control Devices (MUTCD) is issued by FHWA as the National Standard for TCD;

• The California MUTCD is published by Caltrans and is issued to comply with CFR and in accordance with CVC Section 21400.
PART 1 – GENERAL

Section 1A.13 – Definitions Change and addition:

✓ 43 Crashworthy “or the Manual for Assessing Safety Hardware (MASH) crash guidelines.”
✓ California Department of Fish and Game to “California Department of Fish and Wildlife”

42. Counter-Flow Lane—a lane operating in a direction opposite to the normal flow of traffic designated for peak direction of travel during at least a portion of the day. Counter-flow lanes are usually separated from the off-peak direction lanes by tubular markers or other flexible channelizing devices, temporary lane separators, or movable or permanent barrier.

43. Crashworthy—a characteristic of a roadside appurtenance that has been successfully crash tested in accordance with a national standard such as the National Cooperative Highway Research Program Report 350, “Recommended Procedures for the Safety Performance Evaluation of Highway Features” or the Manual for Assessing Safety Hardware (MASH) crash guidelines.

44. Crosswalk—(a) that part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the highway measured from the curbs or in the...
PART 2 – SIGNS

✓ The In-Street and Overhead Pedestrian Crossing signs shall not be used at Signalized Intersection Controlled Approaches.
2014 CA MUTCD REVISION 2

PARTS 2, 5, & 6

REVISED R11-3a sign from “BRIDGE OUT” to “BRIDGE CLOSED”
2014 CA MUTCD REVISION 2

PART 2 – SIGNS

✓ ADDED new Figure 2M-102 (CA)

California MUTCD 2014 Edition
(FHWA’s MUTCD 2009 Edition, including Revisions 1 & 2, as amended for use in California)
