**Release** – Date and time forwarding instructions are received from consignor by JVRR. Once forwarding instructions are received by the JVRR, the consignor is acknowledging that its railcar is loaded, all seals (if applicable) are in place, and all hatches or doors are closed and that the railcar is available for pick up. A railcar found to be improperly loaded or overloaded will not be considered released until the load has been adjusted properly and suitable for shipping. A railcar placed on interchange tracks of consignor, doing its own switching, must also be returned to interchange tracks for release.
