

# 5 Key Questions to Ask Your Systems Integrator

## 1 HOW LONG HAVE YOU BEEN IN BUSINESS?

Their Answer:

Our Answer: Curry Controls has been building and upgrading systems for over 40 years.

## 2 DO YOU SUB OUT ANY ASPECT OF THE WORK?

Their Answer:

Our Answer: Subbing out aspects of a project increases cost, risk, and uncertainty of who is working on your system. At Curry Controls, our team consists of every area of expertise needed for your project.

## 3 HOW LARGE OF A FACILITY DO YOU HAVE?

Their Answer:

Our Answer: Some integrators work out of their garage (literally!). At Curry Controls, our 30,000 square foot, debt-free facility allows us to build and test equipment on site.

## 4 WHAT HAPPENS AFTER THE SYSTEM IS COMPLETE?

Their Answer:

Our Answer: Some integrators may not be in business in the future, right when you may need maintenance help on your system. Curry Controls has a leadership team that is dedicated to the industry. We aren't going anywhere, we will be here for you for decades to come.

## 5 WHAT IS YOUR BONDING CAPACITY?

Their Answer:

Our Answer: Many integrators struggle to get the bonding some projects require. With our size and history, Curry Controls is able to secure the bonding requirements for your project.
