Krug X Berluti Bag

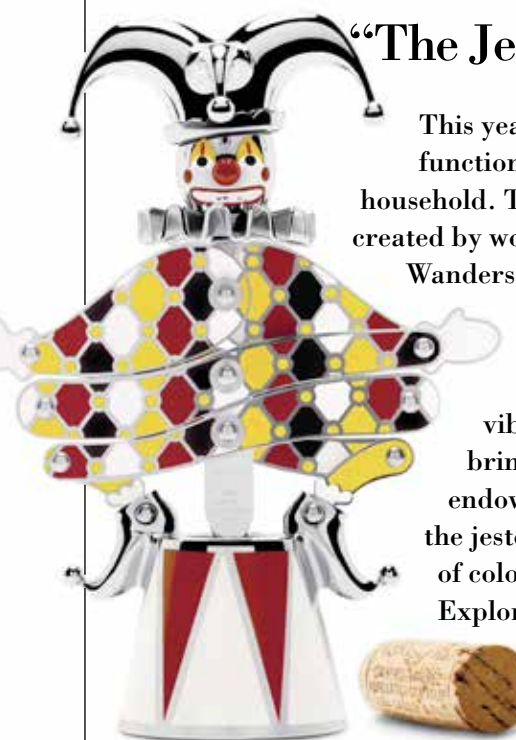

For dinner party frequent goers, now there is a chic way to carry Krug Champagne and Berluti shoes in style. Remodelling the Berluti's emblematic Un Jour briefcase, Berluti and Krug are collaborating on the next venture by creating limited-edition bags: Short Journey and Long Journey. The Short Journey is a smaller model which has three removing compartments with a bottle of Krug Grand Cuvée and two glasses while Long Journey is a larger model with six removable internal compartments with a bottle of Krug Grand Cuvée, Krug Rosé Joseph and four glasses. The dual-purpose bags, which are Champagne carriers for bringing bottles of Krug to party as well as travel bag for carrying Berluti shoes. A unique and limited edition collection, both Short and Long Journey bag is an epitome of true class and style. **Berluti online store - Short Journey: HKD \$36,900 & Long Journey HKD \$45,500**

“The Jester” Corkscrew

This year, Alessi seeks to bring a functional and artistic collection to your household. The cheerful “Alessi Circus”, created by world-renowned artist Marcel Wanders, brings you to a vivid world of magic and wonder. Focusing on circus imagery, Wanders captures the character and vibrant colours of a circus and fully brings them into play. “The Jester” is endowed with a lively character where the jester jumps up and down in a blast of colours while you are uncorking.

iFavine Smart Decanter

Described as one of the best wine technologies by Michel Bettane, iFavine is the first aerating machine that uses oxygenation technology to shorten decanting time from hours to minutes to unleash the full potential of every wine. Available in iSommelier and iSommelier Pro, both prepare wine to be ready for consumption and enhance the taste as well. One hour of decanting in a carafe is equivalent to two minutes of aeration through iFavine. With this new technology, we can now save the decanting time and have the best experience at home!

Wine Art System

Has it ever occurred to you that you could enjoy an open bottle of wine up to 10 days without losing any flavours? The Wine Art System not only guarantees that your wine will be at a perfect serving temperature, its air vacuum system also allows all of the flavours of your wine to remain intact and grants you the freedom to drink a bottle opened several days ago at your own pace. This exclusive Wine Art System has two separate compartments, so two bottles can be brought to the correct serving temperature. Once opened, the bottles can be put back in a Wine Art compartment. The air extraction system ensures that the wine is protected from the risk of oxidation up to 10 days after opened. You can now enjoy wine tasting in a whole different way! www.eurocave-alpha.com - **HKD\$4,600**

The Durand, your help for corks

Having difficulty in opening your old bottle of vintage wine without leaving pieces floating in it? Invented by wine collector Mark Taylor, who had struggled with corks when opening aged fine wines, The Durand is an effective device in removing compromised and fragile corks from old wines, and eliminating the undesirable outcomes of broken corks and corks being pushed into bottles. If your wine cellar has quite a few old and rare bottles, The Durand is set to help you open them effortlessly! www.thedurand.com - **HKD\$980**
