TO OUR HERO
FRONTLINE RELIEF MEALS
Thank you for your inquiry to contribute to the, “To Our Hero” food run. This program is designed to provide healthy, delicious meals to our medical teams currently fighting on our frontlines against the COVID pandemic.

Your donation will be directly linked to a food run to our hospital teams and allow our community of hundreds of people around the world to submit their letters of support and encouragement which we attach to their individual meals. This letter will remind them, that there are people around the world cheering them on. We want them to know that we recognized their sacrifice, and we want them to know how appreciative we are as a community of what they are accomplishing keep us and our families safe.

Lets show them how far and wide our love can reach.
