

Are you at risk for psychosis?

Participate in a study to receive an expert evaluation.

Principal Investigator:
Cheryl M. Corcoran, MD
Associate Professor of Psychiatry
Icahn School of Medicine at Mount Sinai
1399 Park Avenue
New York, NY 10029

Schedule a confidential phone screening at **212-659-1789**
or email [languagelab@mssm.edu](mailto:language@languagelab@mssm.edu).

Seeking people, ages 15-35
who are having psychotic-like
experiences such as:

- Unusual thoughts
- Suspiciousness
- Perceptual disturbances, like seeing or hearing things that others do not

You may be eligible for a study
of language patterns and emotion
recognition in faces and voices.
This study involves interviews,
brain imaging (MRI), and brain wave
testing (EEG).

Participants will receive:

- free psychiatric evaluation
- detailed report of clinical interview results
- compensation for their time
