

Jacquard
Lumière Lampshade
by Kim Meyer

Materials:

- Lampshade (fabric or paper)
- Jacquard Lumière Super Copper and Metallic Bronze
- 1 inch foam paintbrush
- ¾ inch self-stick dots from an office supply store
- Paper palette or paper plate

Instructions:

1. Stick the dots onto the lampshade in a random polka-dot pattern.
2. Put some Lumière Super Copper and Metallic Bronze in small pools onto a paper plate or paper palette.
3. Dab the foam paintbrush into the paint and apply to the lampshade alternating colors. Cover the dots and vary the brushstrokes. Mix the colors together a bit on the lampshade for a two-tone effect.
4. Let the paint dry completely. It is not necessary to heatset or fix the paint for this project.
5. After the paint is dry, remove the dots.
