

# The Piñata Caddy

**Great Solution for saving your valubles from your pets!**

*by Victoria Garcia courtesy of Jacquard Products*

We have a new puppy! She is a Hungarian Vizsla and her name is Annie. Like all puppies she likes to chew on things so every time I get up from the couch I have to take my cell phone, the house phone and two remote controls with me. When I saw this little basket in the thrift store, I thought it would make a perfect caddy. What better to jazz it up than with Jacquard's Piñata Alcohol Inks!

## Materials

- **Small wicker basket**
- **Jacquard Rich Gold, Rainforest Green and Calabaza Orange Piñata Inks**
- **3 small containers**
- **Fabric piece**
- **Glue gun and glue**
- **Small brushes**

## Directions

1. Run a clean cloth over your basket to be sure it is free of any dust, etc.
2. Pour a small amount of each color into a container.
3. Using a separate brush for each color, paint the basket in your design.
4. After the basket has dried, fold a piece of fabric to fit as an inside liner.
5. Secure around the top edge of the fabric using a glue gun.
