

Neighborhood Center

Fay Biccard Glick Neighborhood Center

2990 W. 71st St.

Indianapolis, IN 46268

Dear Employer,

My name is Merry Juerling and I am the Workforce Development Coach at Fay Biccard Glick Neighborhood Center (FBGNC).

My role as the Workforce Development Coach is to assist residents in Pike and Washington Townships towards upward movements in their employment, whether it is getting help with a resume, interviewing skills, overcoming life barriers to current/future employment, or getting enrolled in a certification or higher education program or degree. to name a few of our services. Our goal at FBGNC is to use a family approach for each client we serve, providing proper resources and services that fit the needs of the family towards better employment outcomes, better workers and happier families.

My role equally includes partnering with employers and adult education organizations to help disseminate sustainable employment and educational opportunities in the community. We strive for at least a \$15 per hour sustainable wage for our clients. Partnering in on-site and off-site training and certifications is another service we provide to employers in our service area, as well as periodic Employer Spotlights and Job Fairs towards assisting employers in filling positions with quality candidates.

Whether for a specific employee, a group of employees or your future employees, I would love to partner with your organization. Please reach out to me to schedule a brief introductory phone call or in-person meeting.

Best Regards,

Merry Juerling
