

May 7, 2022

The inspired costume designs and costume crafts of *Nightmare Alley*, *Sort Of* and *Schmigadoon!* sashay with top honours at this year's CAFTCAD Awards.

The Annual CAFTCAD Awards premiered May 7th at 9 pm ET on youtube and www.thecaftcadawards.com. With in person screenings in Toronto, Calgary and Vancouver, industry insiders came together to celebrate new ground breaking costumes for character and stories. Directed by Liz Whitmere and hosted by the dazzling Steffi Didomenicantonio and Anand Rajaram, whose on-screen chemistry and enthusiasm warrant their own comedic sitcom.

“These costumes from achingly gritty circus folk to futuristic explorers have now become part of our consciousness. I am astounded by the originality I see from Canadian costume designers and their teams. We’re becoming known internationally for our abilities to find new takes on garment construction, finishing techniques and colour palettes. I am always incredibly proud that we commend their immense talents with this event.” CAFTCAD Awards Chair Joanna Syrokomla.

ABOUT CAFTCAD and the CAFTCAD Awards

For over a decade, the Canadian Alliance of Film and Television Costume Arts and Design (CAFTCAD) has worked towards bringing together Canadian costume professionals from all corners of the industry, regardless of union affiliation. CAFTCAD has succeeded in creating a thriving environment within which members can share, learn and advance their craft, while simultaneously raising the awareness of the contributions these artisans have made in the international industry of film, television, video, and commercials.

The CAFTCAD Awards, which held its inaugural event in 2019, is the culmination of these efforts to bring the costuming community together, recognize and reward talent, and usher CAFTCAD onto the world stage.
