Windsor County
Vermont KIDS COUNT®

3 Pregnant women who seek early prenatal care (care within the first trimester)
4 Infants weighing less than 5.5 pounds at birth, per 100 live births
5 Births to mothers ages 15-19, per 1,000 females of the same age
6 Child deaths per 100,000 children ages 1-14
7 Teen deaths per 100,000 teens ages 15-19
8 Births to mothers ages 15-19, per 1,000 females of the same age
9 Births to mothers ages 15-19, per 1,000 females of the same age
10 First births to single women under 20 years of age with less than 12 years of education

† As they are based very small numbers, changes in Child Death and Teen Death rates over time or differences between counties are generally not statistically meaningful.

‡ The additional risk factors are: Parental stress, Parental mental health, Parental substance use, Parental violence, and Parental food insecurity.

§ The additional risk factors are: Parental stress, Parental mental health, Parental substance use, Parental violence, and Parental food insecurity.
