RESEARCH SUMMARY

Impacts of a State Medicaid Reform Model to Reduce Disparities

• Term: 08/01/2016 – 08/31/2020
• Grantee: Kenneth John McConnell, PhD
• Sub-recipient: OCHIN, Inc.
• Funding Agency: National Institute on Minority Health and Health Disparities (NIH)
• Grant Number: 1R01MD011212-01

Assessing the effects of Oregon’s CCO model on reducing disparities among three populations - socioeconomically disadvantaged individuals, racial and ethnic minorities, and residents of rural areas.

Potential Impact

The impact of the study will be to describe the effect of Oregon’s CCO model on racial, socioeconomic, and rural/urban health disparities, and inform future Medicaid state-level reform.

Organizations Involved

• Oregon Health & Science University Center for Health Systems Effectiveness
