TRANSFORMING HEALTH CARE TO DRIVE HEALTH EQUITY

About OCHIN
As a nationwide network, we innovate and partner to remove barriers and transform health care delivery, so that everyone has a fair opportunity to achieve their full health potential.

Health Equity
OCHIN addresses differences in health that are systemic, avoidable, and unjust. We work to close the gap in health for individuals and communities negatively impacted by racism or other structural inequities.

Virtual Health System
OCHIN’s network includes more than 21,000 providers who reach over 6 million diverse patients nationally—the largest network of community-based providers in the country.

Data-driven Solutions
OCHIN advances data-driven research and evidence-based best practices that expand access to high-quality, affordable health care in marginalized and underserved communities.

Our Members
OCHIN serves a national network of locally-controlled organizations who provide independent, community-based care to patients across a variety of health care settings, including:

- Community Health Centers
- Public Health Departments
- Correctional Facilities
- Behavioral Health Providers
- Critical Access Hospitals
- HIV/AIDS Care Organizations
- School-based Clinics
- Dental Clinics

The OCHIN Network Supports:

- 21,000 providers in
- Nearly 1,000 health care delivery sites across
- 45 states

We Reach Underserved Communities

- 6M+ patients

Nearly 1 out of 2 network patients are on Medicaid, and 1/4 are uninsured

Nearly 1 out of 3 network patients prefer care in a language other than English*

3 out of 5 network patients have chronic conditions*

2 out of 5 network patients identify as people of color; nearly 1/3 are Hispanic (of any race)

*OCHIN Epic patients only
Technology Innovation
We close the digital divide in health care by increasing access to affordable and inclusive technology solutions.

- **90% virtual care adoption** across the OCHIN network and 2.5M telehealth encounters completed in 2020, expanding access to both primary and specialty care through culturally and linguistically appropriate telemedicine.
- **65% cost savings** with OCHIN broadband services, providing affordable and reliable connectivity for remote or mobile care services.
- **>25 preferred technology partners**, providing robust add-on functionality to enhance health care delivery.
- **Rapid COVID response**, including a COVID Mobile App and integrated clinical tools to support screening, testing, in-patient triage, scheduling, and vaccination throughout the pandemic.

Clinical Support Services
We support the medical workforce with virtual tools, services, and training to reduce burden, enhance opportunity, and improve efficiency.

- **>1.4M electronic case reports** delivered to the CDC through the AIMS platform across all 50 states, expediting providers’ public health reporting and supporting real-time disease monitoring during COVID-19.
- **$2M subsidized through COVID-19 Telehealth Program** to support members’ ongoing telehealth expansion; plus additional support for other state and federal funding programs.
- **>100 diverse clinics** comprise the OCHIN Health Center-Controlled Network (HCCN), making it the largest in the country and fostering continuous quality improvement.
- **>200 participants** in OCHIN Provider and Clinical Content Builder Programs, developing clinical capacity and contributing to the ongoing optimization of the OCHIN Epic Model System.

Research and Analytics
We collaborate to advance research and data-driven best practices that reduce cost and improve health outcomes.

- **40 active research projects** and more than 200 publications to advance understanding of health disparities and drive systemic change.
- **>1M screenings** for social determinants of health conducted to support more than 500K patients, giving providers and researchers deeper insight into how these external factors affect both patient and population health.
- **As a Medicare Qualified Entity**, OCHIN’s quality improvement work supports efforts to reduce the overall cost of health care in our system, while achieving more equitable health outcomes nationally.

Our partnership with OCHIN brings the best technology and tools to our providers and patients, no matter where they are, driving equity and better health in every community.”

Mike Gifford, President & CEO
Milwaukee, WI

About OCHIN
OCHIN is a driving force for health equity. A national nonprofit health IT organization with two decades of experience transforming health care delivery, OCHIN provides leading-edge technology, data analytics, research, and support services to nearly 1,000 community health care sites, reaching over 6 million patients. We partner, learn, innovate, and advocate to close gaps in health care that are systemic, avoidable, and unjust, so everyone has a fair opportunity to achieve their full health potential.
