ROAD-TRIPPER TYPE "S"

## BASE MODEL: R 57 000.00

The Road-Tripper Type "S" is a design inspired by the American Teardrop craze dating back to the early fifties already. Offering a 2-sleeper trailer with galley kitchenette and enough packing space to ensure a comfortable trip for two on a typical Road-Trip adventure. A beautiful aerodynamic shape with large diameter mag wheels compliments the aesthetics of this exciting trailer. A full sized spare wheel is fitted on request. Wheels are usually matched with that of the towing vehicle, for ease of use and matching looks.

Two large doors, with sliding windows are an essential part of this design, giving access and exit from both sides of the trailer. Fitted onto a rugged steel chassis for easy towing with small vehicles capable of handling the tare weight of 400 kg and a total Gross vehicle mass of 750kg when fully loaded. (900kg axle capacity) No additional driving license is required when the GVM does not exceed 750kg. The trailer comes standard with a 220v power-pack, lights in the kitchen and cabin, with ample plugs in the kitchenette area and includes USB ports inside the cabin area. (Upgradable to include batteries, inverters and solar panel).

A 3-fold, high density foam, queen sized mattress (Included), fits inside the cabin, with a floor area of 1500 wide x 1950 long. Folded, the mattress can be used as a day-bed couch, or stowed in the footwell area, leaving ample packing space on the vinyl covered floor area for your stowage needs for your adventure. The kitchenette includes a large storage compartment for kitchenware and groceries as well as cabinet space for cutlery and dining sets. (Supplied separately). The galley hatch is supported by two struts when open and can easily be operated and locked securely when needed for travelling.

All units are sold, inclusive of Natis registration papers.

A range of accessories are available throughout the range and is interchangeable with other models. These would include a sleek roof rack frame for a possible rooftop tent, universal to accommodate all our "Swing up and out" awnings available. (Roof top frame capacity 300kg)

Recommended with all our trailers are the side tables and wash-rack system to compliment your glamping experience.

ROAD-TRIPPER TYPE "X"

## BASE MODEL: R 60 000.00

The Road-Tripper Type "X" is a derivative of our range, especially designed for the needs of the lifestyle-oriented customer with our ability to customize or supply all the accessories to fit the lifestyle choice. These would include trailers specifically kitted for the Fishing enthusiast or mountain biker / hiking market, not wanting the tent experience anymore. A rugged 4x4 shape with large diameter mag wheels compliments the aesthetics of this outdoor trailer. A full sized spare wheel is fitted on request. Wheels and chassis heights are usually matched with that of the towing vehicle, for ease of use and matching looks. A trailer, capable to offer the out of city / dirt road requirements this lifestyle demands. A single large door, with two sliding windows are an essential part of this design, offering a comfortable and focussed alternative to sleeping in a tent. Fitted onto a rugged steel chassis for easy towing with small vehicles capable of handling the tare weight of 400 kg and a total Gross vehicle mass of 750kg when fully loaded. (900kg axle capacity) No additional driving license is required when the GVM does not exceed 750kg.

The trailer comes standard with a 220v power-pack, lights in the cabin, with ample plugs in the kitchenette area and includes USB ports inside the cabin area. (Upgradable to include batteries, inverters and solar panel). A 3-fold, high density foam, queen sized mattress (Included), fits inside the cabin, with a floor area of 1500 wide x 2400 long. Folded, the mattress can be used as a day-bed couch, or stowed in the footwell area, leaving ample packing space on the vinyl covered floor area for your stowage needs for your specific adventures.

All units are sold, inclusive of Natis registration papers.

A range of accessories are available throughout the range and is interchangeable with other models. These would include a roof rack frame for a possible rooftop tent, universal to accommodate all our "Swing up and out" awnings available. This model usually also attracts the need for fishing rod holders, bike supports, Jerry cans, Gas bottles etc, (Roof top frame capacity 300kg), as well as an additional rear frame to house the spare wheel, with axe and bush spade.

Recommended with all our trailers are the side tables and wash-rack system to compliment your more adventurous camping experience.

ROAD-TRIPPER TYPE "XL"

**BASE MODEL: R 65 000.00**

The Road-Tripper Type "XL" is the luxury derivative of our "X" range, especially designed for the needs of the lifestyle-oriented customer with our ability to customize or supply all the accessories to fit the lifestyle choice. These would include trailers specifically kitted for the Fishing enthusiast or mountain biker / hiking market, not wanting the tent experience anymore. A rugged 4x4 shape with large diameter mag wheels compliments the aesthetics of this outdoor trailer. A full sized spare wheel is fitted on request. Wheels and chassis heights are usually matched with that of the towing vehicle, for ease of use and matching looks. A trailer, capable to offer the out of city / dirt road requirements this lifestyle demands. The kitchenette, now re-introduced, includes a large storage compartment for kitchenware and groceries as well as cabinet space for cutlery and dining sets. (Supplied separately) The galley hatch is supported by two struts when open and can easily be operated and locked securely when needed for travelling.

Two large doors, with sliding windows are an essential part of this design, giving access and exit from both sides of the trailer, still offering a comfortable and focussed alternative to sleeping in a tent. Fitted onto a rugged steel chassis for easy towing with small vehicles capable of handling the tare weight of 400 kg and a total Gross vehicle mass of 750kg when fully loaded. (900kg axle capacity) No additional driving license is required when the GVM does not exceed 750kg. The trailer comes standard with a 220v power-pack, lights in the kitchen and cabin, with ample plugs in the kitchenette area and includes USB ports inside the cabin area. (Upgradable to include batteries, inverters and solar panel) A 3-fold, high density foam, queen sized mattress (Included), fits inside the cabin, with a floor area of 1500 wide x 1950 long. Folded, the mattress can be used as a day-bed couch, or stowed in the footwell area, leaving ample packing space on the vinyl covered floor area for your stowage needs for your specific adventures. All units are sold, inclusive of Natis registration papers.

A range of accessories are available throughout the range and is interchangeable with other models. These would include a roof rack frame for a possible rooftop tent, universal to accommodate all our "Swing up and out" awnings available. This model usually also attracts the need for fishing rod holders, bike supports, Jerry cans, Gas bottles etc. (Roof top frame capacity 300kg)

Recommended with all our trailers are the side tables and wash-rack system to compliment your more adventurous camping experience.

ROAD-TRIPPER TYPE "XL" LIMITED EDITION

**BASE MODEL: R 75 000.00**

The Road-Tripper Type "Limited Edition" is the Length-extended luxury derivative of our "XL" range, especially designed for the needs of the lifestyle-oriented customer with our ability to customize or supply all the accessories to fit the lifestyle choice. These would include trailers specifically kitted for the Fishing enthusiast or mountain biker / hiking market, not wanting the tent experience anymore. A rugged 4x4 shape with large diameter mag wheels compliments the aesthetics of this outdoor trailer. A full sized spare wheel is fitted on request. Wheels and chassis heights are usually matched with that of the towing vehicle, for ease of use and matching looks. A trailer, capable to offer the out of city / dirt road requirements this lifestyle demands. The kitchenette, is customised to client requirements to include the introduction of a fridge/freezer combination, as well as microwave and Induction stove, includes a large storage compartment for kitchenware and groceries as well as large, extended cabinet space for cutlery and dining sets. (Supplied separately)

The galley hatch is supported by two struts when open and can easily be operated and locked securely when needed for travelling. Two large doors, with sliding windows are an essential part of this design, giving access end exit from both sides of the trailer, still offering a comfortable and focussed alternative to sleeping in a tent. Fitted onto a rugged steel chassis for easy towing with small vehicles capable of handling the tare weight of 400 kg and a total Gross vehicle mass of 750kg when fully loaded. (900kg axle capacity) No additional driving license is required when the GVM does not exceed 750kg. The trailer comes standard with a 220v power-pack, lights in the kitchen and Cabin, with ample plugs in the kitchenette area and includes USB ports inside the cabin area. (Upgradable to include batteries, inverters and solar panel) A 3-fold, high density foam, longer queen-sized mattress (Included), fits inside the cabin, with a floor area of 1500 wide x 2100 long.
