Every ring is stamped with a unique serial number. This permanent ID provides a tool to audit both rings and the attached assets, preventing substitution. All styles of Tamper-Proof Key Rings® crimp to a smooth seal. Attached keys and assets are free to rotate the full 360 degrees of the ring to prevent bunching. Once opened, the ring cannot be re-crimped.

The Industry Standard Among Security Professionals

Strict tolerances provide you with the ultimate in strength and durability. Our popular Tamper-Proof Key Rings® provide an added layer of protection for your most valuable assets – from keys and utility knives to medical equipment and cash tills. These high-security, stainless steel rings cannot be opened without detection, thus preventing asset substitution.

Solid & Flexible Rings

Each size of Tamper-Proof Key Ring® is available in both solid and flexible braided stainless steel. Both solid and flex rings are sealed with our same Crimping Tool.

Unique ID & Smooth Seal

Every ring is stamped with a unique serial number. This permanent ID provides a tool to audit both rings and the attached assets, preventing substitution. All styles of Tamper-Proof Key Rings® crimp to a smooth seal. Attached keys and assets are free to rotate the full 360 degrees of the ring to prevent bunching. Once opened, the ring cannot be re-crimped.
**Tools**

Unique tools prevent the substitution of alternative key rings.

**The Closing Tool**
Closes and holds solid rings in preparation for crimping.

**The Crimping Tool**
Clamps down to create our smooth recessed seal on both solid and flex rings.

**The Knipex® Cutting Tool**
Used to permanently cut open the key ring seal in order to remove keys or assets.

---

**Color Coded Control**

The only plastic we use with our Tamper-Proof Key Rings® is the color coded tags. Five colors are available to help group key rings for quick identification.

**Available Colors**
Orange    Yellow
Green     Blue
Red       Assorted

---

**Key & Fob Shield**

Multiple shield sizes may be used to prevent unwanted viewing of your high security assets. Key Shields attach to any Tamper-Proof Key Ring® and slides over your assets to conceal their profile when locked in a SAM™.

**Available Colors**
Blue
Red

---

**Starter Kit**

Our patented Tamper-Proof Key Ring® technology starter kit provides your most valuable assets with an added layer of protection. Our high security stainless steel rings cannot be opened without detection thus preventing asset removal or substitution.
