Instructions

Pulelehua Kamehameha Life Cycle

*Note: This craft works best when printed on cardstock paper.

1. Prepare The Base
   a. Cut on bold black lines
   b. Mountain folds for dashed lines
   c. Valley folds for the dotted line
   d. Fold bottom tabs and tape together to form your quadrama

2. Cut out the Leaf with Pulelehua Eggs on it.
   a. Curl the two sides of the leaf with the Pulelehua eggs lengthwise with the eggs facing out.
   b. Place the leaf into one of the four sections of the mini quadrate, with the stem in the bottom rear corner, and the eggs facing out. Use the tabs to tape it into place.

3. Cut out the bare Leaf and Pulelehua Caterpillar
   a. Curl the bare leaf lengthwise
   b. Use a glue stick to attach the caterpillar onto the leaf, with the caterpillar head facing down.
   c. Place the caterpillar into the section of the mini quadrama to the left of the Pulelehua eggs, with the stem in the corner, and the caterpillar facing down. Use the tabs to tape it into place.

4. Cut out the Pulelehua Chrysalis
   a. Curl the stem lengthwise with the chrysalis facing out.
   b. Hang the chrysalis in the next quadrate from the top edges of the angled walls, with the chrysalis facing out.
   c. Use the tabs to tape it into place. Gently bend the chrysalis at the top so that it hangs stright down.

5. Cut out your Pulelehua Kamehameha (Kamehameha Butterfly).
   a. Cut a 4” piece of wire or pipe cleaner. This is what your butterfly will be hung from.
   b. Bend one end of your wire/pipe cleaner to make a swirled base.
   c. Tape the swirled end of the wire onto the last slot of your quadrama and bend the other side of your wire straight up.
   d. Tape your butterfly onto the erected wire. It should look like your butterfly is flying!

6. Quadrama Labels.
   a. To assemble the quadrate labels, fold each dashed line and glue or tape the black sections together to form a tent.
   b. Glue or tape the label into the appropriate sections of the Pulelehua mini quadrama.

What you need:
- Paper
- Access to a Printer
- Scissors
- Tape
- Glue stick
- Wire or pipe cleaner
