INSIDER TIPS

TIPS FOR PACKING

In a gallon-size, Ziploc bag, pack one change of clothes containing:
• 1 Pair of shorts
• 1 T-shirt
• 1 Pair of underwear
• 1 Pair of socks

Place the bag into a suitcase or trunk, making it easy to pull out one bag and have everything together for the child to wear each day. This alleviates locating one item at a time. Send extra changes of clothing; more than enough for one a day if the child is prone to needing multiple changes. Send underwear and socks in abundance to allow for a change of clothes in connection with swimming and other water activities.

These items can be packed into separate gallon bags and labeled as “extra socks,” etc. Long pants or jeans and a lightweight jacket or rain coat should be included as well, and bags labeled accordingly.

Label toiletries such as a toothbrush, toothpaste, shampoo, and deodorant in a separate bag.

Make and enclose a list of items that are packed to ensure everything is repacked, especially items brought for relaxation such as games or books.

Label everything, especially favorite items (stuffed animal, blanket)!

Send only clothes that are okay to get stained, dirty or torn. Campers will be active and engage in a variety of activities. The first priority of camp is having fun, and taking care of clothes is not generally among the highest priorities.

Counselors will assist campers in unpacking and organizing their belongings in the cabin to ensure all items are found and used, such as washing hair WITH shampoo.
