Dear Company Name,

My name is Aaron Saxton, but I go by Jaysin (a variant spelling of my middle name). I am currently a senior at Savannah College of Art & Design, studying to obtain a BFA in Graphic Design with a minor in Advertising Photography. I have 8 years experience as a Freelance Graphic Designer, 5 of which are paid. I am applying to this position, because I am seeking to gain more experience in my field. I am hard-working, respectful, honest, creative, and efficient

I qualify for this position because of my past and current work experience with iPiction & Sea Ray Investment Group. Also, I've been honing my skill since 2007 and have been doing freelance work here and there, through connections, that I have made over the years.

I spent three years in the Coast Guard, where I learned a lot of valuable lessons. Honor, Respect, and Devotion to Duty, these are the Coast Guard's core values and they have become mine as well. After the Coast Guard, I went back to Sea Ray Investment Group, as a contractor, while I did a few part-time jobs on the side. I started at Savannah College of Art & Design in the fall of 2014. Since I enrolled as a transfer student, I expect to graduate in the next couple of years. I love what I do and have the experience.

In Graphic Design, I tend to lean more toward print, concept, process, identity, and branding. That being said, I do have experience in Web and Interface Design. I also paint and do photography, I find that these help me in my Graphic Design skills and give me a lot of inspiration and ideas to play with. As an employee of your company, I would be bringing all these skills to the table.

I hope to have the opportunity to work with you now and possibly in the future.

Thank you very much for your time and consideration.

Very respectfully,

Jaysin Saxton
